

Author Guidelines Jurnal Keperawatan Padjajaran (JKP)

Padjadjaran Nursing Journal (JKP) are a journal of scientific publications published every four months (quarterly) using a peer review system for article selection. Padjadjaran Nursing Journals intended for practitioners, academics, professionals, students or among the general public who are involved and interested in the development of Health and Nursing Science. It can receive relevant articles in the field of health and nursing, which includes research articles.

General Instructions

The articles received are original works, have not been and / or are in the process of being published in other journals, all articles have been approved by the ethics committee and articles involving human subjects have obtained informed consent and written following the American Psychological Association (APA)) Edition 6 of 2009. The author should ensure that all co- authors have agreed. All articles will be discussed and reviewed by experts and editorial boards. Articles that need improvement or revision will be returned to the author.

Writing Article

The Articles should be written in English and are written using Times New Roman font, size 12 with space 1.5. Distance of left edge 4 cm, right edge 3 cm, edge above 3 cm and bottom edge 3 cm. Article lengths of at least 12 pages and maximum 20 pages. Article submitted in the form of layout 1 (one) column. The article contains two references from JKP with Google scholar. Each page is numbered in sequence from the title page to the last page.

Structure Writing

The structure of writing in JKP is as follows: Page Title, Abstract, Introduction, Methods, Results of Research, Discussion, Conclusions, and Bibliography. The following describes the guidelines for each writing structure:

Title page

The title page contains the title of the article (title no more than 12 words, written briefly and clearly and no abbreviations), author's name (without academic title), affiliate author (department and institution name), email address, and institutional address.

Abstract

Abstract for each article written in Bahasa Indonesia and English. The abstract form is written in a concise and clear description of the background, methods, results, conclusions, and suggestions (implications) of the research. The abstract is accompanied by a keyword (key words) consisting of 3-5 keywords and the order is arranged alphabetically.

Table

The tables are arranged in a row, each table should be briefly titled and placed on top of the table, the title of the table is written in capital letters at the beginning of the word, except for the foreground. The maximum number of tables in each article is 6 tables.

Photos / Pictures / Diagrams

Photos, pictures, and diagrams are arranged in sequence, and given a short title and placed on the photo / drawing / diagram with a maximum of 3 pieces.

Bibliography

Bibliography is written in accordance with APA rules, references are written in alphabetical order. Minimum referral number 50% taken from journal. Year published 80% reference minimal from last 10 years. Avoid referral in the form of personal communication (personal communication). Here's an example of writing a reference:
